NAUEN · BRANDENBURG · 45 MIN FROM BERLIN HBF

One project, start to finish, in a real workshop

Wood Camp is a small, private making day at the Berlin Wood Sisters workshop in Nauen. Instead of a fixed course with a fixed outcome, we agree on your project first and then spend the day building exactly that.

You work with real wood and good tools, at your own pace, with me beside you the whole time. Beginners are very welcome. Most people who come here have never held a carving knife or a hand plane before, and they still go home with a finished piece.

01 WE AGREE ON THE PROJECT

Before your day we talk it through, by e-mail or in a short call. You tell me what you would love to make and what you have made before. I tell you honestly what fits into a half day and what needs a full day, and I prepare the workshop for it.

02 YOU ARRIVE AND SETTLE IN

Coffee first. Then a short introduction to the tools, the wood and how to work safely with both. Nothing technical, only what you need for the piece in front of you.

03 YOU BUILD IT

The main part of the day. Shaping, carving, fitting, sanding, finishing. I guide, demonstrate and step in where it gets tricky, but your hands do the work.

04 YOU TAKE IT HOME

Finished and oiled, with the knowledge of how you got there and an idea of what to try next if you want to keep going on your own.
